

# RAHUL LOUR

## Software Engineer | Backend & Full-Stack Developer

**Location:** Gurgaon, India    **Phone:** +91 9812363814    **Email:** rahullour01@gmail.com  
**LinkedIn:** linkedin.com/in/rahullour    **GitHub:** github.com/rahullour/myProjects

### PROFESSIONAL SUMMARY

Software Engineer with nearly 3 years of professional experience specializing in Java, Spring Boot, Microservices, and RESTful API development. Proven expertise in designing scalable backend architectures, relational database optimization (PostgreSQL, MySQL), and implementing secure Role-Based Access Control (RBAC). Experienced in building enterprise HRMS platforms, e-commerce applications, and real-time distributed systems.

### TECHNICAL SKILLS

|                                    |                                                                                                                                               |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Languages:</b>                  | Java (Core & EE), SQL, JavaScript, HTML5/CSS3, Ruby                                                                                           |
| <b>Frameworks &amp; Libraries:</b> | Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, RESTful APIs, Thymeleaf                                                             |
| <b>Databases &amp; Cloud:</b>      | PostgreSQL, MySQL, Firebase Firestore, Cloudflare R2, Render                                                                                  |
| <b>DevOps &amp; Tools:</b>         | Docker, Git, GitHub, Postman, Swagger/OpenAPI, Linux                                                                                          |
| <b>Core Competencies:</b>          | Microservices Architecture, Data Structures & Algorithms, Object-Oriented Programming (OOP), MVC Design Pattern, Background Jobs & Cron Tasks |

### WORK EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                  |
